## INSTRUCTIONS TO AUTHORS

Please type all manuscripts, double spaced. This makes it much easier for us to ensure accuracy. If you have access to a word processor then manuscripts can be submitted on disc. We print on an Apple Laserprinter from an IBM AT. Early processing of manuscripts is done using Microsoft WORD, later the file is taken into PageMaker for its final layout. Documents should preferably be on 5 1/4 inch floppies and produced on an IBM (or IBM compatible) machine. Documents in WORD are best, but PageMaker can take documents from most other programs. Manuscripts on disc can be processed much faster than type-written ones.

We also have a facility for reading typed text directly into the computer. If you have a long manuscript which cannot be sent on disc, please make sure the print is clear (use a new ribbon) and that the letters are widely spaced, and use as few type styles as possible.

In general articles and notes should follow the guidelines used by EMU (or see earlier issues of MURUK). Please pay special attention to the correct citation of references.

For english and scientific names of birds use those in Beehler, B.M. *et al.* (1986). **Birds of New Guinea**, Princeton University Press, or the checklist produced by the Society (Hicks, R. (1987) **Checklist of the Birds of Papua New Guinea, PNGBS**). In listings of birds please follow the order used in these publications.

For place names, please amke sure that these are locatable. If they do not occur on the standard PNG maps then give the nearest mapped locality. Always give the province after the name.

Illustrations should be neatly drawn in black ink. Try not to put on too much detail. For all maps etc. please submit two copies, one without any annotation and another with the place names (etc.) marked. Alternatively mark the place names on a transparent overlay. Line drawings of birds are welcome. Again, use black ink, and use as few shades as possible; stippling prints well.

If you have any special requirements with regard to publication please let us know. The editors reserve the right to make whatever changes they see fit, and will not normally return manuscripts for proof reading unless this is specifically asked for by the authors.

Recent observations is compiled from observations submitted. Casual observations are always welcome for inclusion from any part of PNG.
